## SENIOR SOFTWARE ENGINEER

Results-driven Senior Software Engineer with 8+ years of experience designing and building scalable web applications. Proficient in Python, TypeScript, and cloud-native architectures. Passionate about clean code, mentoring junior developers, and delivering high-impact products that serve millions of users.

## PROFESSIONAL EXPERIENCE

### Senior Software Engineer

Nexus Technologies

San Francisco, CA

Jan 2021 - Present

- Led a team of 6 engineers to redesign the core payments platform, reducing transaction processing time by 40%.
- Architected a microservices migration from a monolithic Rails app, improving deployment frequency by 3x.
- Implemented CI/CD pipelines with GitHub Actions and Terraform, cutting release cycles from weekly to daily.
- Mentored 4 junior engineers through structured onboarding and weekly 1-on-1 coaching sessions.

### Software Engineer II

Brightpath Analytics

Austin, TX

Jun 2018 - Dec 2020

- Built real-time data visualization dashboards using React and D3.js, serving 50K+ monthly active users.
- Designed RESTful APIs in Python/Flask handling 2M+ daily requests with 99.9% uptime.
- Collaborated with product and design teams to ship 12 major features over 2 years.

### Junior Software Developer

CloudSpark Inc.

Seattle, WA

Aug 2016 - May 2018

- Developed and maintained internal tools using Python and Django, streamlining HR workflows.
- Wrote comprehensive unit and integration tests, increasing code coverage from 45% to 82%.
- Participated in agile sprints and contributed to architecture decision records.
